Investor Revolution! Overthrow Wall Street and Take Back Your Future

Now is the time to join the investor revolution and take control of your money and your future! **Investor Revolution!** outlines a management process that embraces changes in technology, the investment markets, and the course of readers' lives. Overthrow Wall Street and take back your future.

A profitable life balances a fortune of experiences, money and tangible goods. In **Investor Revolution!**, Thomas L. Hardin outlines his vision of how investors will seek to manage their wealth given a radically different vision of their future. Hardin is the chief investment officer of **Canterbury Investment Management** and draws upon more than 30 years of investment management experience to challenge readers to become revolutionary investors. He

contends the traditional Wall Street model of pushing commissioned products is not in investors' best interests and outlines a process for readers to take advantage of new tools to create a dynamic investment program.

Never Too Old to Rock & Roll: Life after 50 – The Best Years Yet

We're living longer than ever before. **Never Too Old to Rock & Roll** offers a different perspective: Life after 50 can be our best years yet!

Thomas L. Hardin discusses two unprecedented events that are sweeping America. 10,000 members of the rock and roll generation will become an albatross around America's neck – overwhelming the health care system, bankrupting Social Security, hoarding our wealth and retreating to retirement villages where we'll refuse to suppose schools and social services with our taxes.

We've changed everything we've ever cared about, from voting rights to civil rights, from how we raise our kids to how we relate in the workplace. Now we care about aging, and we're going to do it like it's never been done before. With the simple steps outlined in this book, being older can mean being healthy, wealthy and wiser than ever.
